SUMMARY

Full stack/Mobile/Web developer, with an eye for design, seeking a junior level developer position. With over 15 years of design and photography experience, I've followed my passion for software development and have been focused on creative, mobile-friendly, responsive web applications and native iOS development.

TECHNICAL KNOWLEDGE

Ruby, Rails5, Xcode 9, Swift 4, Adobe Photoshop, Illustrator, Lightroom, Mac OS X, HTML, CSS, Terminal, Atom, Git, Github, Chrome Dev Tools, Responsive Web Design, JavaScript, Postgres, SQL, Bootstrap, Trello, Slack.

EXPERIENCE

The Iron Yard, St. Petersburg, FL, — Developer, 2017

Developed a Ruby on Rails 5 application, MyPhotoCard (photocard.herokuapp.com), for creating a personalized, digital trading card using Shrine, imgkit, wkhtmltoimage-binary, for photo upload/output processes, SendGrid for email delivery, and Adobe Photoshop CC to create the card templates. A responsive web design deployed to Heroku with a Postgres database for storing user data.

Created a Rails 5 CRUD application, QuoteKeeper (quotified.herokuapp.com), for the purpose of collecting and storing random quotes and sayings with a Sort By drop down menu and Search feature. QuoteKeeper is a mobile first, responsive web design that incorporates a photo API from Unsplash and a Javascript feed from Brainy Quote, deployed to Heroku with a Postgres database for data storage.

Built demo, iOS apps with Xcode9 and Swift 4. A classic card game of War (<https://github.com/jbzozowski/WarAppCardGame>); a prognosticating Magic 8 Ball (<https://github.com/jbzozowski/Magic-8-Ball>); and a Baseball themed slider game, BullsEye, (<https://github.com/jbzozowski/BullsEye>) that awards points for accuracy.
